

Spotlight on Supporters: No Longer Bound Receives the Gift of Gardening

Gardens represent possibility, new life, hope, promise, peace, and restoration, We are so grateful for Take It Outside, a nonprofit of individuals and organizations in the outdoor service industry, which is constructing a beautiful raised-bed gardening environment at No Longer Bound.

We look forward to this new therapeutic work environment being a sanctuary for both residents and staff, as well as a way for the organization to begin growing some of our own food.

Thank you to Take It Outside for this incredible addition to No Longer Bound's campus. (More updates and beautiful photos to come!)
